Feature: *Where the Crawdads Sing* by Delia Owens

“For years, rumors of the “Marsh Girl” have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life--until the unthinkable happens. *Where the Crawdads Sing* is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Owens reminds us that we are forever shaped by the children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps.”– Amazon.com.

We will be meeting via Zoom (video conferencing). If you have read the book and would like to participate, please [contact](#) the library to receive a Zoom invitation.

Most Items Continue To Be Quarantined For 7 Days

A **REALM** study shows that after six days of quarantine the SARS-CoV-2 virus is detectable on stacked library materials. In response to these findings, GCCL quarantines most items for seven days. Items that have known holds on them will be quarantined, unstacked, for 3 days.

Returned items will remain checked out on your library card during the quarantine. You will not be assessed any overdue fines during these days. When the quarantine ends, staff will begin working with the materials to get them checked-in and back on the shelves, knowing that the risk of infection has passed for both staff and future users.

All items must be returned in the book drop. Please do not bring returned items into the library or hand them to library staff.

I am working very hard to come up with a safe plan for everyone to attend Hogwarts this year!
