How to Create an Account

Go to the GCCL website at <http://www.grovecitypalibrary.org/> and select library catalog from the resource tab. When the library catalog displays, select “Create Account.”

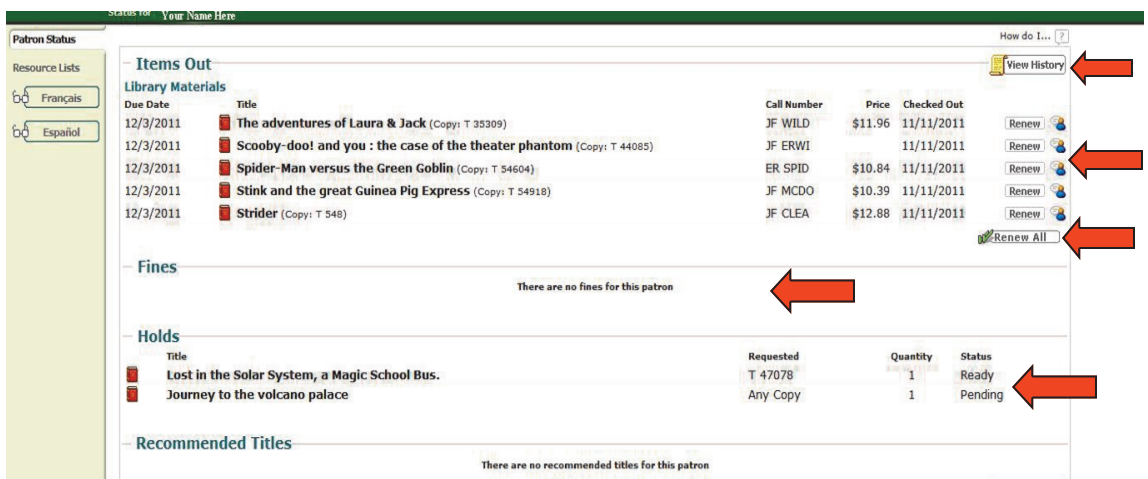

At this point you will be prompted to enter your last name and your GCCL barcode number. Do this and select next.

On the next screen you will be prompted to create a user name and a password. You will then need to confirm your password. Finally, you are requested to enter an email address. While an email address is not required to create an account we strongly encourage you provide an email address so we can communicate with you, via email, information regarding your account. After you have entered the necessary information select save to create the account.

Once your account is created and you are logged in to Destiny you will have two tabs available to you, the “Catalog” tab and the “My Info” tab. When you select the “My Info” tab you will see “Items Out,” “Fines,” “Holds,” “Recommended Titles,” and “View History.” “Items Out” lists what is currently checked-out on your account. It is here that you will have the option to renew individual items or all items currently checked out.* “Fines” lists any outstanding fines on your account. “Holds” lists all holds you have placed on your account and whether they are pending or ready for pick-up. “Recommended Titles” list titles that have been recommended to you by library staff or library patrons you have accepted as a “friend.” “View History” lists all of the books you have checked-out previously.

The “View History” list is by check-out date and title. To search the list, first select “Show All” and then use your Internet browser’s find function (usually <Ctrl> and <F> depending on browser and browser version) to search by title.
